PREPARE for the Lestive Season.

Christmas is around the corner...

Do you know how to prepare to show of a perfect complexion as well as great body, hand and feet skin? We have the treatments you need, the right ingredients and the latest tools to make your beauty moment unique.

COMPLEXION

A bonus for your skin

Khanya Hyaluronic Booster, concentrated intensive case fluid. Its formula - which contains hyaluronic acid and PhytoCellTec - grants even the more demanding, dehydrated skins a fresh, radiant and well rested appearance. Hyaluronic acid hydrates the skin's top layers, helps retain moisture and immediately gives your skin a terser,

more even appearance. It has aloe vera, which provides a proper, highly beneficial dose of hydration, as well as panthenol, which encourages the process of skin regeneration.

Anti-ageing cocktail

Rich, enveloping texture **Anti-ageing facial cream with Collagen** + **Silanol**. Perfect for combatting the signs of ageing thanks to the action of its powerful agents: collagen - which is considered the skin's architect due to its great firming power - provides terseness and firmness, while silanol, also known as organic silica, is the skin's regenerator and repairer par excellence. And to rejuvenate your gaze, the **Exclusive Cosmetics eye patches** - the **Anti-ageing patch with gold** and the **Intensive regeneration one with hyaluronic acid.** Achieve a gaze that is free of undereye bags, dark circles or signs of tiredness.

Beautiful Complexion Primers

your greatest allies

It's Christmas time, a time for celebrating, and we all want to look radiant all day long. If you'd like to boast impeccable make-up, the **Perfect Complexion line** primers soften and unify the skin, providing a pleasant silky feel. They are easy to use, just apply after your normal serum and cream but before make-up, so that it may fix properly, leaving your skin looking perfect and shiny, at any time during the day. **Perfecting facial primer:** its effects are instantaneous, and it may be used even

without make-up, for showing off impeccable skin throughout the day. **Pore minimising primer:** for or mixed skins, minimises pores and mattifies shiny

areas; it is applied by means of a soft massage before your make-up to avoid the appearance of shiny areas. And don't forget to pay special attention to the T-zone (forehead, nose and chin). **Eyelid primer:** apply a small amount on clean eyelids using the tips of your fingers, and then the eye shadow - this will illuminate and rejuvenate your gaze. Also, shadows fix and do not quarter.

BODY

Addictive

Exfoliation allows for eliminating dead cells, regenerating your skin and giving it a healthier appearance. It also tones, leaving it soft and nourished. **The Corporal Coffee Exfoliant** is made from natural ingredients, and it revitalises your skin while restoring its elasticity. It provides in-depth nourishment and hydration. The stimulating effects of coffee on your skin contribute towards improving blood circulation and eliminating toxins and grease. They come in two scents to choose from.

Illuminate

Treat your skin to a beauty plus - you will feel more beautiful during the festive season. The **Luminosity effect body hydrator** hydrates your skin while providing a soft, mother of pearl effect that highlights the skin's colour.

Cellulite under control

We recommend using anticellulite creams throughout the year to combat it. It is important to apply them properly: spread the product in an ascending manner, massaging legs with special emphasis on areas where it concentrates the most. **The Viseger Pharma Anti-cellulite** contains caffeine, carnitine, butcher's broom extract, fucus,

green tea, centella, maca and

more... firming, toning ingredients.

8 CHRISTMAS 2017

CARE FOR YOUR FEET

Use the **Blushion Electric Pedicure Nail File** to softly eliminate rough, hardened foot skin. Your soles and heels will get back their natural appearance from the very first use. It comes with two interchangeable brush heads; use the one that suits your skin best.

Rose Gold

We bring you the **Rose Gold** nail kit, which comes with a **Toilet** bag and **No. 794 golden pink nail varnish -** and for a more sophisticated look, why not combine it with the **No. 795 black nail varnish?** And for your manicure's final touch, **No. 796 gloss nail varnish.** But there's more - if you're after a manicure that is both elegant and simple, use the Diamond type **Sticker decorations.**

False nails

Stop shying away from **False Nails** once and for all. They are easily applied and the result is beautiful and natural. Do you know how to put them on? Start by choosing the tips that fit your nails: if they don't fit, go for a larger size and file the sides down. Apply glue to the inside of the tip and place it on your nails, applying pressure for about ten seconds. To remove the tips, we recommend using nail varnish remover with acetone: wet the sides of the

false nails, then lift using an orange tree stick. If there is excess glue left on your nails, remove it with a cotton bud soaked in nail varnish remover with acetone. Then paint them in a fashionable colour.

French manicure

The French Manicure Templates will help you

achieve beautiful nails. The user manual is easy enough: firstly, apply a base to protect your nails, then place a template on the tip, marking the edge, and finally apply a couple of layers of nail varnish and leave to dry; carefully remove the template and then apply one or two layers of French Manicure nail varnish to the entire nail and leave to dry. Finally, apply gloss. And *Voilà!*

The model is wearing Creamy No. 09 fiery red lipstick.

And to make up for the excesses...

Playing NUDE

The " $no\ make-up$ " look is still trending. Skin that appears made up but is not is in fashion. Whether satin or matt, skins that look intact are here

$1\,$ Hydrating, Mattifying Cream

Absorbs sebum and controls face shines - the ideal starting point for make-up. All the skin types need special care to re-establish the balance between water, oil and moisture factors. The vegetable oils in this cream make up for the lack of lipids in a natural way, while providing outstanding feeling skin. Its ceramides help improve the skin's elasticity and firmness and counteract the loss of moisture.

2 Fixed and Covering make-up and concealer

The new concealer has the same characteristics as its makeup counterpart. Achieve coverage and fix without losing comfort... It is resilient and covers imperfections while providing colour and luminosity. It perfects the skin, covering flaws and providing a smoother appearance. Apply directly to areas you would like to correct, such as under-eye bags, nostrils and small imperfections. It is spread by gentle touches with the fingertips.

\Im Universal Mattifying Powder

Once applied, its white tone is totally invisible and perfectly uniform. You will have light-feeling skin with a radiant, healthy finish thanks to its light-filtering texture. It eliminates shines, minimises pores and gives your skin a velvety finish. It blurs out imperfections. Ideal for all skin tones and types. Apply after make-up.

4 Perfect Complexion Anti-shine Sheets

They eliminate shines without tampering with your make-up. Mattifies your skin.
