In your { hands

This holiday season make way for easy beauty resolutions that will get you ready in a few minutes with radiant skin. The definitive beauty guide for this Christmas.

ESSENTIAL: REMOVE MAKE-UP AND CLEANSE

During this holiday season, we wear more make-up and, thus, we must keep in mind the importance of correctly removing our make-up for our skin to breathe and maintain its hydration levels. A clean skin is the first step against signs of tiredness and ageing.

For a beautiful skin, we must cleanse it thoroughly, providing it with hydration, if possible. The **Hydrating Cleansing Milk** and the Hydrating Facial Tonic, a basic combo that must always be in our bathroom, remove make-up and tone up the skin, eliminating make-up traces and daily-life impurities, as well as calming and hydrating it.

If you prefer an all-in-one, choose the **Micellar Cleansing Water** that will allow you to remove make-up and clean your skin in one motion, no rinsing necessary. The micelles act as magnets that drag the particles of dirt and make-up. This product cleanses and removes make-up, providing smoothness and tone, which makes it particularly advisable for sensitive skins.

For eyes and lips, use a specific product to remove the make-up that leaves a sense of cleanness and well-being. The **Eye and Lip Make-Up Remover** with its two-phase formula eliminates any make-up residue, even the most resistant, such as waterproof ones.

GOAL: HYDRATE AND NOURISH

Cleansing is essential and hydrating appropriately is fundamental to boost the natural beauty of your skin, so that it shows a healthy glow.

The bustle of the holidays, the lack of sleep, the changes in your diet... can affect your face and make it look tired, and your skin fatigued.

The **Luminous Serum with Vitamin C** restores skin glow, so it looks radiant, thanks to the regenerating and highlighting effect of vitamin C. Then, apply the **Balancing Facial Cream** which hydrates and smooths out the skin with its hyaluronic acid, vitamin E and other active ingredients. It contains a formula that regulates excess face oil and contributes to restoring the balance of normal and oily skin. It also includes SPF 10 protective filters.

REMEMBER

The difference between serum and facial cream is that the latter protects the outer surface of the skin, while the serum acts on the inner one.

These are complementary products that reinforce each other.

LUXURY IN YOUR SKIN

The **Beauty Secret Dry Oil** provides many benefits to the skin of the face and the body. Its oily texture makes it easy to apply without leaving a greasy sensation. Dry oil will leave your skin smooth and with a beautiful glow. Apply a small amount and spread with care. This is all you need to nurture your face and body.

TIP

The **Beauty Secret Dry Oil** can also soften hair. Apply a small amount to the ends to nurture them and provide shine.

A TREAT FOR YOUR SKIN

The **Hand, Face and Body Moisturising Cream** has a Christmas edition. Its intoxicating perfume and a pleasant texture provide hydration and smoothness to pamper all types of skin. Carry it in your purse so you can hydrate whenever you need.

If you wish to prepare your skin for the cold winter and be perfect during the holidays, the **Firming Body Cream Luxe Caviar** deeply repairs and nourishes, fighting ageing and bringing elasticity back to your skin.

And for soft and delicate hands and nails, take extra care of them with the **Regenerating Nourishing Hand Cream**, which nourishes and repairs dry skin thanks to its enriched formula with jojoba oil, shea butter and vitamin E.

ACTIONS THAT ADD UP

The **Fast Hydration Ampoules** are applied on a clean face and must be massaged until fully absorbed: skin will become smooth and acquire glow instantly.

The **Facial Anti-Shine Wipes** easily eliminate shiny skin without messing up your make-up; perfect to carry in your purse and touch up any time.

THERE'S SOMETHING ABOUT MEN

As happens with women, men also want specific care for their skin. The **Regenerating Facial Oil with Sweetbriar Rose** will be their perfect ally to battle against the cold winter, since lower temperatures mean the skin needs more nurturing. It can be applied on the face and very dry areas, such as elbows, knees and the outside of the arms. It will restore an invigorated aspect to your skin.

Lips also suffer, especially during the winter, due to their thin and delicate skin. To avoid losing hydration, use the **Repair Lip Balm** daily to protect your lips from dryness.

TIP

Mix a few drops of Regenerating oil with your usual moisturising cream and you will boost its effect, obtaining softer and healthier-looking skin.
